SUMMARY

Highly skilled Full-Stack Web Developer with 6+ years of experience building scalable, user-centric applications. Proficient in modern tech stacks, including JavaScript, React, Node.js, and MongoDB. Proven track record of optimizing code performance, reducing system vulnerabilities, and delivering cross-platform solutions that drive business growth.

WORK EXPERIENCE

Software Engineering Intern | NatWest Group

Jan.2020 - Sept. 2021 (Remote)

- Engineered scalable MERN stack components, contributing to a 25% reduction in page load times through optimized state management.
- Developed and deployed RESTful APIs using Node.js and Express to support high-concurrency requests for internal dashboards.

Full Stack Developer | NatWest Group

Feb.2022 - Dec 2022(Remote)

- Acted as the point of contact for all critical errors for 3 major client projects and reduced the time to fix the critical errors by 14%
- Developed a highly visible web-app for the people operations team to manage all information related to the organization from structure to compensation to performance feedback using a Vue Front-end and a Node backend with a MySQL database.

Senior Full Stack Developer | Protect AI

Jan. 2023 - Oct. 2025(Remote)

- Engineered scalable MERN stack components, reducing page load times by 25% through optimized React state management and MongoDB indexing.
- Collaborated with cross-functional teams to migrate legacy systems to Next.js, significantly improving SEO performance and user retention metrics.

Senior Full Stack Developer | PCS

Nov. 2025 - Feb. 2026(Remote)

- Worked closely with the product team to build intelligent search functionality in Angular for an e-commerce site with a catalogue of 2,5000 products leading to an increase in page views per session of 22%
- Improved the page speed by 15% for an e-commerce site that generates \$25M annually in revenue by leveraging browser caching and improving server response times.

Frontend Developer | Highspot

Feb. 2026 - Jun. 2026(Remote)

- Enhanced front-end accessibility and cross-device responsiveness for over 50,000 monthly active users using Tailwind CSS.
- Optimized front-end performance and component rendering to improve the end-user experience across administrative dashboards.
- Implemented automated end-to-end testing workflows using Jest and Cypress to ensure UI component stability and reduce production bugs by 40%.

Graduate Certificate in Full-Stack Web Development

Jan 2018 – May 2020

GIIT Africa, Computer College, Ikeja.

- Advanced Full-Stack Web Development and MERN stack architecture.
- Developed and deployed professional web platforms using React, Node.js, and modern deployment pipelines.

Bachelor of Science in Civil Engineering

Aug 2025 - Present

City College of Software Engineering

- Relevant coursework in Advanced Web Architecture and Full-Stack Project Management.
-

ADDITIONAL INFORMATION

- **Technical Skills:** Project Management, Structural Analysis, Robotics and Automation, CAD
- **Languages:** English, Arabic
- **Certifications:** Professional Engineer (PE) License, Project Management Professional (PMP)
- **Awards/Activities:** Received the "Software Engineering Excellence" Award for outstanding contributions to project innovation, Borcelle Technologies.
